

Complete Project List - Mallela Kranthi Kiran

1. EduTrainer AI Agent

AI tutor for students that clears doubts, tracks learning, mocks interviews.

2. AI MCQ Auto-Solver Bot

Chrome extension that solves MCQs using OCR and GPT/Gemini.

3. AI Answer Sheet Evaluator

Evaluates written answers like a real teacher using NLP and AI.

4. Virtual Brain System

AI memory and productivity assistant that learns user habits.

5. AI Virtual Company Simulation

LLM-powered simulation of company departments.

6. AI Cancer Health Agent

Cancer detection using symptoms, data analysis, and ML.

7. Smart Exam Proctoring

Detects cheating via webcam and audio feeds.

8. AI Content Generator for Courses

Auto-creates videos, PDFs, and quizzes using AI.

9. AI Interview Q&A Generator

Generates questions and STAR answers automatically.

10. Crowd Emotion Detector

Analyzes audience emotion in events via computer vision.

Complete Project List - Mallela Kranthi Kiran

11. Zet Pay Super App

One app for recharges, UPI, travel, movies, food, etc.

12. Recharge & Bill Payments System

Recharge and bill pay module with real APIs.

13. Movie Ticket Booking System

Seat booking with blockchain verification and filters.

14. Temple Darshan Booking App

Books puja slots, donations, and live streaming.

15. Food Delivery System

Zomato-style system with tracking and suggestions.

16. Smart Resume Generator

Creates resume PDFs with AI suggestions.

17. Internship Finder AI Tool

Matches students with internships and AI-generated cover letters.

18. CCTV Attendance System

Uses face recognition for automatic attendance.

19. CI/CD for AI Apps

Build-test-deploy pipelines for AI apps.

20. Dockerized LLM Deployment

Self-hosted AI with containerized infrastructure.

Complete Project List - Mallela Kranthi Kiran

21. IaC Project with Terraform

Deploys infrastructure as code on AWS with Terraform.

22. Secret Manager System

Secures API keys and secrets.

23. Monitoring & Alert System

Live error and performance tracking with alerts.

24. Student Grade Prediction

Predicts grades from attendance and scores.

25. Twitter Sentiment Analyzer

Tracks sentiment on hashtags in real time.

26. ETL Pipeline with Airflow

End-to-end data flow using Airflow and Spark.

27. Fraud Detection Model

Detects financial fraud using AI.

28. Blackhole + Rankhole Attack Simulation

Simulates WSN attacks and defenses.

29. AI-Powered IDS/IPS

Network intrusion detection with ML.

30. Blockchain File Sharing

Encrypts and tracks shared files using blockchain.

Complete Project List - Mallela Kranthi Kiran

31. Gesture-Based Driving Game

Play games via hand gestures using computer vision.

32. Auto-Portfolio Generator

Auto-generates GitHub portfolios and resumes.

33. One-Click Deploy Tool

Deploys full apps with one command.

34. Own LLM Project Generator

Self-hosted LLM builds code and docs from a prompt.

35. ZetBolt (Vercel+LLM)

Prompt to App builder with deploy, docs, and CI/CD.

36. Anti-Corruption Gov System

Tracks government work on blockchain to remove corruption.

37. Faculty Dashboard System

Tracks teacher performance and student feedback.

38. Smart Food Maker AI

Suggests recipes from voice, ingredients, and calorie preferences.
